

Are you looking to create a complete, best-of-breed VoIP strategy for your enterprise?

Prepare your network for convergence with CDW, APC, Avaya, Bandwidth.com, Foundry, Polycom and BlackBerry.

In today's business world Unified Communications or Convergence is becoming less of a luxury and more a necessity. When you talk about a complete Unified Communication solution, you are talking about the combination of voice, video and data on the IP network. On August 27, 2008 CDW will be in Durham, NC along with six partners to present and explore all aspects of a complete Convergence solution.

Please join us for lunch as we highlight innovative, cost-effective ideas for building convergence-friendly networks and VoIP solutions that address the specific needs of your business.
